RHINO SHOE Ultranite Series is now certified by SIRIM and approved by DOSH (JKKP)

23 May 2019, We are pleased to announce that our RHINO SHOE Ultranite series has been successfully tested & certified by Standard and Industrial Research Institute of Malaysia (SIRIM). On top of that, it has also been approved by the Department of Occupational Safety and Health Malaysia (DOSH). These are in addition to the CE certification which we've obtained last year. These certifications and approval have made RHINO SHOE Ultranite Series one of the very few safety shoe brands in the market which has triple certifications. Wearing RHINO SHOE doesn't just provide the safety, comfort & style, but also provide the assurance that the local regulations are complied.

Here are the details of SIRIM Standard and DOSH Approval number for our Ultranite Series:
